BRAND IDENTITY / WHY IT MATTERS

A registered, recognisable identity

What trademark registration adds to the Hair in Istanbul brand.

👀 A recognisable name and logo

A trademark distinguishes a business's services from those of others. This certificate records the Hair in Istanbul mark shown on the previous page. [1]

A legal foundation for the brand

Registration strengthens the right holder's position in addressing unauthorised use within the registered scope. It supports protection of the identity people recognise. [1]

24 MAY 2022	20 SEPTEMBER 2022	10 YEARS
Protection begins	Registration date	Term recorded

How long does protection last?

The certificate records ten years from 24 May 2022. Turkish trademark protection can be renewed for further ten-year periods, subject to the applicable requirements. Check the official record for current status. [2]

💬 Is this a patent for a hair-transplant method?

This is a trademark registration for the brand. Patents concern inventions; this document does not establish a patented technique or clinical accreditation. [3]

ORIGINAL SERVICE SPECIFICATION

The original wording is reproduced here alongside the English reading guide on the previous page.

Read the certificate and its annex together

The registration identifies the mark; the annex sets out the listed services. A class number alone does not define the entire scope.

A CLEAR COMPARISON

Three documents. Three purposes.

Understand what each record contributes to the picture.

01

Health-tourism coordination

AK-0630 concerns international health-tourism intermediary services.

02

Travel-agency operations

Operating document 14706 identifies the Group A travel agency. TÜRSAB provides the agency-search route.

03

Registered brand identity

Registration 2022 073490 records the Hair in Istanbul mark and its listed services. Brand protection is separate from medical authorisation.

💬 What should I confirm before booking?

Confirm the organisation arranging your journey, the treating facility, the named physician, the proposed treatment and aftercare. A registered brand helps identify the business; treatment decisions still need an individual clinical assessment.

✅ **Clear documents support informed decisions**

Check the named organisation, the scope of each record and the details of your booking.
